Cross Laminated Timber BBS

Technical Name:
Laminated Timber

Multi-ply crosswise timber for residential and commercial construction. The cross laminated construction allows for regular working of the wood while maintaining good isotropic properties. The composite timber is constructed in 3, 5, 7 and 9 layers and available in spruce, larch, arolla pine, Douglas and white fir. Sheet sizes are up to 1250 mm (4.1 ft) wide and 24 m (78.74 ft) in length. Thicknesses range from 65 to 282 mm (2.56 to 11.1 in). The layers are glued with a formaldehyde free polyurethane (PU) resin, and are fire proof and sound absorbing. The outer surfaces of the planks are available in plane, polished or brushed. Applications are for construction.
